SPIRO® Speaking Valve advantages

- low inhalation resistance
- filter to prevent coarse particles entering the respiratory system
- three different models to suit the individual user
- unique accessories
- quiet operation and easy to maintain
- integrated oxygen nipple (710/710R)
- Made in Sweden

LAO Endotracheal tube

The LAO (Lindholm Anatomical Oval) endotracheal tube conforms to both the contour of the airway and the arytenoid cartilages. This results in safer and more comfortable intubations for the patient (delaying the need for any eventual tracheostomy), thus achieving shorter recovery times and cost savings.

	ART	DESCRIPTION	QTY
	1071	<p>1 x LAO Size 7 EO sterilised tracheal tube</p> <ul style="list-style-type: none"> • Inner diameter 6 x 8 mm; Outer diameter 9 x 11 mm • Cuff diameter 30 mm • High volume low pressure cuff • Suction lumen • Sold in 10 piece carton (1071-10K) 	1
